19	NIT	Annexure A S.No : 8	33	Refernce to NIT document (Annexure A , Serial No 8) if the applicant has done telephone cabling work >= 10 Kms as specified previously as a lead consortium partner and now intends to bid directly , will it qualify ,with other minimum eligibility criteria of 64 line EPABX as per NIT clause 1.1.3.2 being met.	It shall be considered if it is in the scope of work of lead partner as per MOU of consortium

20	<p>You have asked for 30 channels of H.323 and 30 channels of SIPs. What is utilization plan for these channels in integration with DLC, EPABX, IP PBX and logger.</p>	<p>We have asked only for 10 channels of H.323 and 10 channels of SIPs. These channels are required to interface with other make of EPABX used in DMRC which is Alcatel & Siemens makes at present.</p>
21	<p>As clarified in the pre-bid meeting, separate NMS has to be given as per different OEM product supplied. The existing vendor's has already supplied NMS and not required to quote in the present tender. They will be at cost advantage than new vendors, this point must be considered in the commercial evaluation.</p>	<p>All the bidders have opportunity to add their network either on existing NMS by upgradation or by providing the new NMS. The choice lies with the bidder.</p>
22	<p>Working and integration of voice logger should be clarified/explained. It should be on open standard if DMRC wants to integrate with new EPABXs (other than present working brands) or OEM can offer own brand Voice Logger with his solution.</p>	<p>Voice logger Cybertech Pro Digital Recording system is already installed in Phase-II which is to be used for recording of DLC's. TDM based recording (parallel tapping of DLC console) and recording on E1 is possible. This is to be done under interfacing responsibilities of CS12B.</p>
